

CUSTOMER AGREEMENT

This Customer Agreement ("**Agreement**") is entered into by and between MorningView Group, Inc. ("**MorningView**"), a corporation organized under the laws of the State of New York, its successors and assigns, and the undersigned individual or legal entity, including a corporation, limited liability company, trust or partnership (as applicable, "**Customer**") that wants to open a Customer Account ("**Account**") with MorningView.

In consideration of MorningView's agreement to carry one or more Accounts of Customer and provide services to Customer in connection with the purchase and sale of over-the-counter FX contracts ("**FX**"), Customer agrees as follows:

A. TRADING

1. **AUTHORIZATION TO TRADE.** Subject to the terms and conditions of this Agreement and acceptance of Customer's application to open an Account with MorningView, Customer hereby authorizes MorningView to maintain one or more Accounts in Customer's name and engage in FX transactions for Customer's Account in accordance with oral, written or electronic instructions by Customer and its officers, partners, principals, employees or other agents ("**Representatives**"). Customer will bear the risk of all unauthorized instructions by its Representatives and will indemnify and hold MorningView harmless from all claims, liabilities, losses, damages, fees, costs and expenses relating to or arising from MorningView's reliance on such instructions, including any improper, unauthorized or fraudulent instructions by the Representatives, except in cases of gross negligence or willful misconduct by MorningView. Unless expressly stated otherwise in writing, all transactions entered into between MorningView and Customer shall be governed by the terms of this Agreement, as amended from time to time (including, without limitation, MorningView's Risk Disclosures and Trading Policies and Procedures).

B. ACCOUNTS

1. **ACCOUNT APPROVALS AND MAINTENANCE.** MorningView may reject Customer's application or close Customer's Account for any reason, at MorningView's sole and absolute discretion. MorningView may require Customer to provide MorningView with additional information or documentation in order for MorningView to continue carrying Customer's Account. Customer acknowledges that MorningView may, at any time in its sole and absolute discretion, restrict trading, disbursements or transfers. MorningView may amend, change, revise, add or modify the Agreement at any time. The most current Agreement will be posted to MorningView's Web site <http://www.morningviewgroup.com> and on www.gallantfx.com. Customer understands that this Agreement cannot be modified by any verbal statements or written amendments that Customer seeks to make to the Agreement without written acceptance from the General Counsel of MorningView. Customer acknowledges and agrees that Accounts are segregated in the MorningView's books and records only, and Customer's funds are not FDIC-insured and are deposited with a liquidity provider selected by MorningView in its sole discretion.

2. **JOINT ACCOUNT OWNERS.** If this Account is held by more than one (1) person, all of the joint holders agree to be jointly and severally liable for the obligations assumed in this Agreement. If this Account is held in trust, joint ownership, or partnership, the undersigned hereby agrees to indemnify, defend and hold harmless MorningView for any losses resulting from breach of any fiduciary duty of the undersigned to the other holders and beneficiaries of this Account. Further, any one or more of the joint owners shall have full authority for the Account and risk of the Account owners, to buy, sell, and trade in transactions of foreign currencies or off-exchange options, to deposit with and withdraw from MorningView, currencies, securities, negotiable instruments, and other property, including withdrawals to or for the individual use or Account of the party directing the sale or of

any other party, to receive and acquiesce in the correctness of notices, confirmations, requests, demands and all other forms of communications, and to settle, compromise, adjust, and give releases with respect to any and all claims, demands, disputes, and controversies. Upon death or legal incapacity of any of the undersigned, MorningView is authorized to take such action in regard to the Account, as MorningView may deem advisable to protect itself against any liability, penalty or loss. Customer agrees to notify MorningView immediately upon the death or legal incapacity of any joint owner. MorningView may terminate this Agreement by written notice to any one of the joint owners.

3. **MARGINS AND DE POSIT RE QUIREMENTS.** Customer shall provide and maintain margin in such amounts and in such forms as MorningView, in its sole discretion, may require. Customer agrees to deposit by immediate wire transfer such additional margin when and as required by MorningView, and will immediately meet all Margin Calls in such mode of transmission as MorningView shall, in its sole discretion, designate. MorningView may change margin requirements at any time without prior notice. MorningView retains the right to limit the amount and/or total number of open positions that Customer may acquire or maintain at MorningView. MorningView reserves the right to close any Customer positions at any time that it deems necessary. MorningView shall not be responsible for any loss or damage caused, directly or indirectly, by any events, actions or omissions including but not limited to loss or damage resulting, directly or indirectly, from any delays or inaccuracies in the transmission of orders and/or information due to a breakdown in or failure of any transmission or communication facilities. For example, in volatile market conditions a margin call may be delayed resulting in the possibility of a negative usable margin; a margin call may occur even if positions are hedged, in the jurisdictions where hedging is permitted by law, due to currency conversion rate volatility or daily interest charges or credits.

4. **ROLLOVERS.** MorningView may, in its sole discretion and without notice to Customer, offset Customer's open positions, roll over Customer's open positions into the next settlement time period, or make or receive delivery on behalf of Customer upon any terms and by any methods deemed reasonable by MorningView, in its sole discretion. Terms and/or methods for delivering, offsetting, or rolling over Customer's open positions may differ on a customer-by-customer basis, at MorningView's sole discretion. Any positions held in Customer's Account at 5PM EST may be rolled over to the next settlement date and the Account may be debited or credited for the interest differential for the rollover period.

5. **SETTLEMENT DATE OFFSET INSTRUCTIONS.** Offset instructions on currency positions open prior to settlement arriving at settlement date must be given to MorningView at least one (3) business day prior to the settlement or value day. Alternatively, sufficient funds to take delivery or the necessary delivery documents must be in the possession of MorningView within the same period described above. If neither instructions, funds nor documents are received, MorningView may without notice, either offset Customer's position or roll Customer's positions into the next settlement time period or make or receive delivery on behalf of Customer upon such terms and by such methods deemed reasonable by MorningView in its sole discretion.

6. **LIQUIDATION OF ACCOUNTS.** In the event of: (a) death or judicial declaration of incompetence of Customer or, in the case of a legal entity, its dissolution or liquidation; (b) filing of a petition in bankruptcy, or a petition for the appointment of a receiver, or the institution of any insolvency or similar proceeding by or against Customer; (c) filing of an attachment against any of Customer's Accounts carried by MorningView; (d) insufficient margin, or MorningView's determination that any collateral deposited to protect one or more Accounts of Customer is inadequate, regardless of current market quotations, to secure the Account; (e) Customer's failure to provide MorningView any information requested pursuant to this Agreement; or (f) any other circumstances or developments that MorningView deems appropriate for its protection, and in MorningView's sole discretion, it may take one or more, or any portion of, the following actions: (1) sell any or purchase any or all FX

contracts, securities or other property held or carried for Customer; and (2) cancel any or all outstanding orders or contracts, or any other commitments made with Customer. Any of the above actions may be taken without demand for margin or additional margin, without prior notice of sale or purchase or other notice to Customer, Customer's personal or appointed representatives, heirs, executors, administrators, trustees, legatees or assigns and regardless of whether the ownership interest shall be solely Customer's or held jointly with others.

7. MANAGED ACCOUNTS. With regard to managed Accounts, a money manager ("**Money Manager**") is a person or entity authorized to make decisions with respect to an Account on behalf of the Account's beneficial owners, including a trustee, custodian, conservator, guardian, executor, administrator, attorney-in-fact, or investment advisor or other person to whom Customer has granted trading authority over an Account. Customer understands and agrees that MorningView may, but is not required to, review any action or inaction by a Money Manager with respect to an Account and is not responsible for determining whether a Money Manager's action or inaction satisfies the standard of care applicable to such Money Manager's handling of the Account. Customer further understands and agrees that MorningView is not responsible for determining the validity of a person's or entity's status or capacity to serve as a Money Manager. Customer agrees to hold MorningView and its officers, directors, employees, agents and affiliates harmless from any liability, claim, or expense, including attorneys' fees and disbursements, as incurred, for the actions or non-actions of Customer's Money Manager.

10. NOW AIVER OR AMENDMENT.

No provision of this Agreement may be waived or amended unless the waiver or amendment is in writing and signed by both Customer and an authorized officer of MorningView. I. RISK DISCLOSURE STATEMENT.

1. GENERAL.

Trading in margined FX involves a high degree of risk including the risk of loss of the Customer's entire Risk Capital deposited with MorningView. Losses, in some cases, have the potential to extend beyond the Customer's Account Value. In consideration of MorningView agreeing to enter into Foreign Exchange Contracts with its Customer(s) for this Account, MorningView requires all the undersigned Customer(s) to analyze their financial objectives, financial status, investment constraints and tax situation to determine whether FX trading is suitable. In addition, we require our Customers to carefully read and acknowledge the MorningView Risk Disclosure Statement that outlines without limitation the risks associated with trading margined FX through MorningView. By signing this Agreement the Customer understands and agrees that:

2. OTC M argined For eign E xchange T rading i nvolves a high amount of risk and is highly speculative.

Customer(s) agrees that they are in full understanding and willing to assume the legal, economic, and other risks associated with the trading in margined FX, and are willing and able to assume the loss of their entire Risk Capital, defined as those funds, that if lost, would not change your lifestyle or your family's lifestyle. As such, they further agree that margined FX trading is not suitable for Retirement Funds. MorningView encourages Customers to closely manage outstanding open positions and to use prudent money management precautions such as, but not limited to, Stop Loss Orders.

3. Excessive leverage available with Margined FX can lead to quick losses

Customer(s) agrees that using a high degree of leverage, defined as the use of a small amount of capital to control a larger amount of an Open Position, can result in large losses due to a price change(s) of open Foreign Currency Contract(s) with MorningView. MorningView provides leverage on most Currency Pairs for most customers of 100:1. With 100:1 leverage the Customer has the potential to control \$1,000,000 position with \$10,000 in an Account. MorningView encourages its Customers to use only that portion of leverage that the Customer is most comfortable with and to use money management precautions such as, but not limited to, Stop Loss Orders for the purpose of limiting risk. MorningView reserves, at its sole discretion, the right to reduce or increase the amount of leverage given on any Currency Pair at any time and without notice.

4. FX trading experience periods of liquidity risk.

Customer acknowledges that Liquidity Risk, resulting from decreased liquidity of a currency pair, is usually due to unanticipated changes in economic and/or political conditions. Customer also acknowledges that Liquidity Risk can affect the general market in that all participants experience the same lack of buyers and/or sellers. The Customer also understands that liquidity risk can be MorningView specific due to changes in liquidity available to MorningView from an MorningView Custodian of funds interbank liquidity providers or specific to retail FX market makers due to a perception that the risks of the market segment has increased. When liquidity decreases, Customers can expect, at the minimum, to have wider bid to ask spreads as the supply of available bid/ask prices, outstrips the demand. Decreases in liquidity can also result in "Fast Market" conditions where the price of a currency pair moves sharply higher or lower or in a volatile up/down pattern without trading in an ordinary step-like fashion. In some instances, there may exist the possibility that a trading bid and/or ask price for a FX pair or pairs are not available (a situation where there is no liquidity). Although there may be instances when the aggregate OTC FX market enters a "Fast Market" situation or periods where liquidity is in short or no supply, it is important to note that, FXGFX Pro's prices, bid/ask spreads and liquidity will reflect the prevailing interbank market liquidity for MorningView. MorningView can Liquidate Positions of the Customer that do not have adequate margin: Because of the leverage available with OTC Margined Foreign Exchange Trading and the potential for extreme volatility, an MorningView Custodian of funds reserves the sole discretionary right to liquidate Customer's Account(s) should the Margin in the Account not be sufficient to cover the potential risk of loss. MorningView graphically shows the Customer's Liquidation Level on the Customers MorningView Margin Monitor. Should the Customer's Account value go below the free of programming bugs that can cause trading, position keeping or any other required functionality of the Trading Platform and other relevant software applications associated with MorningView including but limited to clearing, market making and escrow Account software, from becoming inoperable or without errors.

5. There i s a C ommunication Risk t hat t he C ustomer assumes.

Although MorningView will have qualified representatives available on the telephone during business hours to accept and execute Customer Market Orders, there exists the risk that the Customer will not be able to contact or make contact with the MorningView representative due to but not limited to, communication malfunction, an overabundance of telephone orders, or any other malfunction or negligence. The Customer acknowledges and agrees that they will hold harmless MorningView for any loss or missed trading opportunity resulting from any communication problems the Customer may encounter.

6. MorningView does n ot t ake r esponsibility f or Money Managers.

Should a Customer grant a Money Manager trading discretionary trading authority or control over a Customer's Account, the Customer acknowledges that MorningView does not take any responsibility for any action done by that Third Party on the Customer's behalf. The Customer grants Money Manager trading authority for the Customers Account at it sole, and full risk. MorningView reserves the right to correct any transactions executed on misquoting errors: In the case when a quoting error occurs that results in a Customer

transaction done at an off-market price, MorningView reserves the sole discretionary right to make the necessary corrections and adjustments to the Customer's Account whether it be in the favour of the Customer or not in the Customer's favour. Any change will be reported to the Customer either verbally or via an electronic method such as but not limited to email.

7. All Market Recommendations made by MorningView or any representative of MorningView are for informational purposes only.

Any decision by the Customer to buy or sell an FX pair is an independent decision by the Customer. Market recommendations made by MorningView or a representative of MorningView do not constitute an offer to sell or buy any Foreign Currency pair from MorningView or from any other source that may provide straight-through processing prices to the Customer. MorningView and its employees are not investment advisor(s) and have no fiduciary duty to Customer and therefore is not liable for any losses incurred by the Customer as a result of information or any recommendations made by MorningView or representative of MorningView. Customer is at Risk if MorningView should go out of business. There is no guarantee that MorningView as a business will be profitable. Consequently, there exists a credit risk that MorningView may be subject to losses, which could, in turn, jeopardize the capital that the Customers have in their Accounts. Customer acknowledges that in the event of insolvency, the Customer can only look to MorningView for performance and return of all Collateral and Margin that the Customer may have at MorningView.

8. MorningView may decide to exit the FX Business.

There is no guarantee that MorningView Custodian of funds may decide that they do not want to continue to participate as a market maker in FX Trading. As a result, the Customer agrees and acknowledges that MorningView may liquidate all Customer positions, and return margined funds to the Customer at the sole discretion of MorningView, at any time and for any reason. MorningView Customers do not hold MorningView liable for any loss as a result of liquidation of the Customers position either on an actual basis or as a result of missed profit opportunities.

9. Customers are responsible for any reporting errors.

Any reporting and confirmation errors of omission, and/or errors in details of transactions including but not limited to the price contracts were executed, the currency pair traded, the market direction (i.e., "buy" or "sell") of order, the type of order and/or any errors in fees, charges or credits to the Customer's Account including but not limited to charges for executing a transaction, wiring funds, rolling over position, and sweeping foreign currency balances into the home currency, require that the customer notify MorningView immediately upon discovery for review. In addition, the Customer is responsible to submit any errors in writing to MorningView and send the complete details to Attn: Morningview Group Inc. 1133 Broadway, Suite 706, New York, NY 10010. Notice shall be deemed received only if actually delivered or mailed by registered mail to, return receipt requested.

10. Risks from trades done over telephone.

MorningView will only accept Market Orders for trades done over the telephone. Telephone trades are considered executed when the MorningView representative says, "done" and relays the complete transaction details. Any given price by a MorningView representative over the telephone prior to execution is considered indicative. MorningView reserves the right to change the indicative price given over the phone if the actual trading price is different due to market conditions, misquote or volatility. MorningView is not responsible for Customer telephone orders if the Customer cannot be heard or understood by the MorningView representative due to, without limitation, accent, speech defect, faulty connection, or excessive background noise at the Customers location or at MorningView. To better insure execution, MorningView requires that Customers communicate in English when giving orders. MorningView cannot guarantee that telephone orders given in a foreign language will be executed. For best results and fast execution, the following procedure will be used:

a. The Customer will first be asked by the MorningView representative the following Account Information:

b. The Customer's MorningView User Name, Account Number and/or other identifying feature. Only after the MorningView representative confirms the Customer's identity, the Customer should relay the following order information:

c. The execution direction to Buy or Sell, the number of lots, and the desired currency pair.

d. The MorningView representative will then repeat the order information for the Customer to confirm. For example the MorningView Representative may say the following, "Buy 2 lots of EUR vs USD at the Market. Confirmed?" By saying, "Yes" the order will be executed at the Market and the details immediately given to the Customer after execution.

The MorningView representative will enter the transaction into the Customer's Account. The details and effects of the transaction will be reflected in the Customer's Online Reports. MorningView does not warrant that trades done over the telephone will be done at prices that mirror the prices displayed electronically at that time over the Trading Platform. MorningView reserves the right to charge a commission for trades done over the telephone. Should MorningView charge a commission for telephone trades, it will be reported on the MorningView Website and be reflected as a line item debit in your MorningView Account Reports. All trades and charges done via the phone are final. MorningView reserves the right to tape all telephone calls without knowledge of the Customer. MorningView is not responsible or liable if the tapes of the telephone calls are erased or never recorded because of error, omission or any reason. MorningView is also not liable should User Name and Account information be obtained knowingly or unknowingly by a Third Party and as a result, trades done in the name of the Customer without his or her knowledge or authorization.

11. Risks from trades done using chat communication devices.

MorningView may utilize an electronic conversational application or other similar chat application for the communication and execution of some market orders. Trades done using chat applications or the telephone should only be done if the Customer cannot execute using the Trading Platform. Although currently not planned, MorningView reserves the right to charge a commission for trades done over chat applications. Should MorningView charge a commission for chat application trades, it will be reported on the MorningView Website and be reflected as a line item debit in your MorningView Account Reports. All trades and charges done via chat applications are final. Neither MorningView nor third party chat application provider is responsible or liable if the electronic logs of the electronic conversations are erased or never recorded because of error, omission or any reason. MorningView is also not liable should User Name, Password and Account information be obtained knowingly or unknowingly by a Third Party and as a result, trades done in the name of the Customer without his or her knowledge or authorization.

12. MorningView has limited liability.

The Customer agrees and acknowledges that MorningView shall not be liable to the Customer for any claims, losses, damages, costs or expenses, including attorneys' fees caused directly or indirectly by any events, actions or omissions, without limitation, claims, losses, damages, costs and expenses, including attorney's fees, resulting from civil unrest, war, insurrection, international intervention, governmental action) including, without limits, exchange controls, forfeitures, devaluations and nationalizations), natural disasters, acts of God, market conditions, communication problems or any delay, disruption, failure of any transmission or communication system or computer hardware or software application whether supplied and belonging to MorningView or from a third party vendor that the Customer and MorningView relies on to conduct execution and reporting services.

13. Effect of "Leverage" or "Gearing".

FX contracts carry a high degree of risk. The amount of initial margin is small relative to the value of the FX contract so that transactions are "leveraged" or

"geared". A relatively small market movement may have a proportionately larger impact on the funds Customer has deposited or will have to deposit. This may work against Customer as well as for Customer. Customer may sustain a total loss of initial margin funds and any additional funds deposited with the firm to maintain Customer's position.

14. Risk-reducing orders or strategies. Placing contingent orders, such as "stop-loss" or "limit" orders, particularly in volatile market conditions, will not necessarily limit Customer's losses to the intended amounts, since market conditions may make it impossible to execute such orders. Strategies using combinations of positions, such as "spread" and "straddle" positions may be as risky as taking simple "long" or "short" positions.

15. Charges. Before Customer begins to trade, Customer should obtain a clear understanding of all charges for which Customer may be liable. These charges will affect Customer's net profit (if any) or increase Customer's loss.

16. Electronic trading. Trading on an electronic trading system may differ not only from trading in an open-outcry market but also from trading on other electronic trading systems. If Customer undertakes transactions on an electronic trading system, Customer will be exposed to risks associated with the system including any failure of hardware and software. The result of any system failure may be that Customer's order is either not executed according to Customer's instructions or not executed at all. Since MorningView does not control signal power, its reception or routing via Internet, configuration of Customer's equipment or reliability of its connection, MorningView cannot be responsible for communication failures, distortions or delays when trading on-line (via Internet). In no event shall MorningView be liable for speculative or expectancy damages for potential future lost profits.

17. Limitation of liability. Customer accepts any trading system provided by MorningView "as is," and without warranties, express or implied, including, but not limited to, the implied warranties of merchantability or fitness for a particular use, purpose or application; timeliness; freedom from interruption; or any implied warranties arising from trade usage, course of trading or course of performance. Under no circumstances shall MorningView be liable for any punitive, indirect, incidental, special or consequential loss or damages, including loss of business, profits or goodwill. MorningView shall not be liable to Customer by reason of delays or interruptions of service or transmissions, or failures of performance of MorningView's or its affiliate systems, regardless of cause, including, but not limited to, those caused by hardware or software malfunction; regulatory action; acts of god; war, terrorism, or our intentional acts. Customer recognizes that there may be delays or interruptions in the use of our system, including, for example, those caused intentionally by MorningView for purposes of servicing the system. MorningView does not guarantee that alternative trading arrangements will be available at a particular time and MorningView will not be held liable for delays in entering an order.

18. Margin. MorningView's margin policies require that Customer's Account be properly margined at all times. Failure to meet margin requirements may result in the liquidation of any open positions with a resultant loss. MorningView reserves the right to liquidate all positions without notice if an Account falls below Customer's minimum margin requirement, in accordance with MorningView's margin call policy.

19. Quoting errors. Should quoting errors occur, which may include, but are not limited to, a mistype of a quote by MorningView, a quote which is not representative of fair market prices, an erroneous price quote from a MorningView employee, such as but not limited to a wrong big figure quote or an erroneous quote due to failure of hardware, software or communication lines or systems and/or inaccurate external data feeds provided by third-party vendors, MorningView will not be liable for the resulting errors in Account balances. The foregoing list is not meant to be exhaustive and in the

event of a quoting error, MorningView reserves the right to make the necessary corrections or adjustments on the Account involved. Any dispute arising from such quoting errors will be resolved in accordance with NFA regulations. In the event of a system error where interest is not charged or credited as scheduled, MorningView reserves the right to apply the missed interest to the Account at any time.

20. Third-Party Authority. In the event that Customer grants trading authority or control over Customer's Account to a third-party trading advisor, such as a Money Manager, whether on a discretionary or non-discretionary basis, MorningView shall in no way be responsible for reviewing Customer's choice of such trading advisor, or for making any recommendations with respect thereto. MorningView makes no representations or warranties concerning any trading advisor; MorningView shall not be responsible for any loss to Customer occasioned by the actions of the trading advisor; and MorningView does not, by implication or otherwise, endorse or approve of the operating methods of any trading advisor. If Customer gives a Money Manager authority to exercise any rights over Customer's Account, Customer does so at Customer's own risk. Customer should regularly review the activity in Customer's Account to ensure that Customer approves of the transactions placed on Customer's behalf by Customer's Money Manager.

21. Disclosure Regarding Bankruptcy Protections. The transactions Customer is entering into with MorningView are not traded on an exchange. Therefore, under the U.S. Bankruptcy Code, Customer's funds may not receive the same protections as funds used to margin or guarantee exchange-traded futures and options contracts, which receive a priority in bankruptcy. Since that same priority has not been given to funds used for off-exchange Forex trading, if MorningView becomes insolvent and Customer has a claim for amounts deposited or profits earned on transactions with MorningView, Customer's claim may not receive a priority. Without a priority, Customer is a general creditor and Customer's claim will be paid, along with the claims of other general creditors, from any monies still available after priority claims are paid. Even customer funds that MorningView keeps separate from its own operating funds may not be safe from the claims of other general and priority creditors.

22. Volatile Market Conditions. Trading at times of extraordinarily volatile market conditions, e.g. key news announcements may expose the Customer to additional risks, including the risk that the Customer may not get the price him or her requests. MorningView cannot and does not guarantee its prices in times of extraordinary market volatility.

23. Simulated Conditions. Simulated conditions may differ from real conditions. Therefore, Customers who trade on demo Accounts should not necessarily expect the same results from live trading.

24. Referring Parties. IF YOU WERE REFERRED TO MORNINGVIEW BY AN INTRODUCING BROKER, REFERRING PARTY OR THIRD PARTY ADVISOR (EACH, AN "IB"), PLEASE BE ADVISED THAT MORNINGVIEW AND YOUR IB ARE WHOLLY SEPARATE AND INDEPENDENT FROM ONE ANOTHER AND THERE EXISTS NO JOINT VENTURE OR PARTNERSHIP RELATIONSHIP BETWEEN THE PARTIES. ADDITIONALLY, NEITHER IB NOR ANY OTHER EMPLOYEE OR AGENT OF IB IS AN AGENT OR EMPLOYEE OF MorningView. **1.** MorningView does not control, and cannot endorse or vouch for the accuracy or completeness of any information or advice Customer may have received or may receive in the future from Customer's IB or from any other person not employed by MorningView regarding Forex trading or the risks involved in such trading. **2.** MorningView provides risk disclosure information to all new Customers when they open Accounts. Customer should read that information carefully, and should not rely on any information to the contrary from any other source. Customer acknowledges that no promises have been made by MorningView or any individual associated with MorningView regarding future profits or losses in Customer's Account. Customer understands that Forex trading is very risky, and that many people lose money trading. **4.** If an

IB or any other third party provides Customer with information or advice regarding Forex trading, MorningView shall in no way be responsible for any loss to Customer resulting from Customer's use of such information or advice. **5.** To the extent Customer has previously been led to believe or believes that utilizing any third party trading system, course, program, research or recommendations provided by IB or any other third party will result in trading profits, Customer hereby acknowledges, agrees and understands that all Forex trading, including trading done pursuant to a system, course, program, research or recommendations of IB or another third party involves a substantial risk of loss. In addition, Customer hereby acknowledges, agrees and understands that the use of a trading system, course, program, research or recommendations of IB or another third party will not necessarily result in profits, or will avoid losses or limit losses. **6.** Because the risk factor is high in foreign currency trading, only genuine risk capital should be used in such trading. If Customer does not have capital which the Customer can afford to lose, Customer should not trade in the foreign currency markets. **7.** Customer understands and acknowledges that MorningView may compensate Customer's IB for introducing Customer to MorningView and that such compensation may be on a per-trade basis or other basis. **8.** Customer understands and agrees that if Customer's Account with MorningView is introduced by an IB, that IB shall have limited access to information regarding Customer's MorningView Account, but the IB shall not have the right to enter into any trades on Customer's MorningView Account unless authorized by Customer under a power of attorney between Customer and IB granting such IB the right to trade on Customer's Account. **9.** Customer understands and acknowledges that Customer may have only one IB, a party that originally referred Customer to MorningView. **10.** Customer may terminate Customer's relationship with an IB by providing written notice to MorningView. Customer understands and acknowledges that Customer can not be considered the client of any other IB. Should you have any questions regarding the risks of trading in foreign currency, please contact your Account representative.

25. PRIVACY POLICY. Information Collected by MorningView. The categories of nonpublic personal information which MorningView shall collect include: (1) information provided by the customer when opening an Account, or to process a transaction, such as name, address, assets, bank information, prior trading experience, etc.; (2) information used to verify the identity of the customer, including copies of government issued identification materials such as passports, drivers licenses, and credit reports; (3) Information resulting from transactions between the customer and MorningView or an affiliate of MorningView, such as withdrawal and deposit forms; (4) Information derived from customer's navigation and usage of MorningView's website and online platforms, including Account trading statements.

26. Information Disclosed by MorningView and To Whom MorningView Discloses the Information. Furthermore, MorningView may provide information, as permitted by law, to government or regulatory agencies and to comply with a legal summons, court order, subpoena or a similar legal process, audit or investigation. We may also disclose your nonpublic personal information if you authorize such disclosure.

27. Confidentiality and Security Procedures. Only those personnel for whom the information is necessary to complete a given transaction shall possess the authority to access the information. MorningView, its personnel, and its affiliates shall strictly adhere to security practices and procedures to ensure the confidentiality of its customers' information. MorningView maintains numerous safeguards that comply with Federal regulations to guard your nonpublic personal information. MorningView will continue to protect the privacy of former customers' nonpublic personal information in the same manner as when they were customers. Unlike continuing customers, however, former customers will not receive annual privacy notices. MorningView

will provide a notice of our privacy policy annually, as long as the customer maintains an Account with MorningView. MorningView reserves the right to make changes to this policy. This policy may always be reviewed on www.cmsfx.com.

J. CONSENTS AND FURTHER AGREEMENTS

1. CONSENT OF ELECTRONIC TRANSMISSION OF CONFIRMATIONS & ACCOUNT STATEMENTS. Customer hereby consents to have Customer's Account information and trade confirmations available on the Internet, in lieu of having such information delivered to Customer via mail or e-mail, as specified in paragraphs labeled "Statements and Confirmations" and "Communications" of the Customer Agreement.

2. Authorization To Transfer Funds. Customer hereby agrees that MorningView may, at any time and from time to time, in the sole discretion of MorningView, apply and transfer from any of Customer's Accounts with MorningView to any of Customer's other accounts, whether held at MorningView or other approved financial institutions, any of the Contracts, currencies, securities or other property of Customer held either individually or jointly with others to another account.

3. Agreement To Use Collateral. Customer authorizes MorningView to sell, pledge, rehypothecate, assign, invest, commingle and otherwise use any Collateral held by MorningView, including, but not limited to, using the Contracts as collateral for a loan to MorningView, and, further trading with the Collateral, as provided in the Customer Agreement (including, but not limited to Paragraph 6 thereof). Where Customer's Account consists of more than one Account, this authorization shall apply to all of Customer's Accounts with MorningView. This Agreement to Use Collateral shall remain in effect so long as Customer's Account with MorningView remains open or Customer has any obligations of any kind to MorningView, under the Customer Agreement.

4. Social Security / Tax ID Certification Customer hereby certifies, under penalty of perjury, that (1) the number provided on the Customer Application is Customer's correct Social Security or Taxpayer Identification Number and (2) the ownership, or beneficiary, of Customer's Account is not subject to backup withholding under Section 3406(a)(1)(C) of the Internal Revenue Code.

5. ARBITRATION AGREEMENT. Any dispute, claim or controversy between Customer, on one hand, and MorningView and/or its officers, directors, agents or employees, on the other hand, arising out of or relating to the Customer Agreement, Customer's Account with MorningView or any other tradings between Customer and MorningView shall be resolved by binding arbitration. The forum of the arbitration may be American Arbitration Association ("AAA"), within the United States of America ("USA"), in accordance with the AAA arbitration rules in effect at the time such arbitration is commenced, or another appropriate arbitration forum within the United States. If the forum of arbitration is outside of the USA, any dispute between the Customer and MorningView shall be resolved in the international division of AAA, the International Centre for Dispute Resolution ("ICDR"), in accordance with the International Arbitration Rules in effect at the time such arbitration is commenced. The award in such arbitration proceeding shall be final and binding, and may be entered in any court having jurisdiction thereof. The arbitration shall be held in New York, NY, USA unless the forum is not reasonably convenient for the Customer, at which time an alternate forum shall be determined by the arbitrator. Customer and MorningView agree to take all steps and execute all documents necessary for the implementation of arbitration proceedings. All statutes of limitations applicable to any dispute apply to any arbitration between Customer and MorningView. The provisions of this Arbitration Agreement shall survive termination, amendment or expiration of Customer's Account relationship or the governing MorningView Customer Agreement or any other relationship between Customer and MorningView. Either Customer or MorningView may require the submission of the dispute to binding arbitration at any

reasonable time, notwithstanding that a lawsuit or other proceeding has been commenced. However, this time limit may be extended by agreement of the parties or by arbitrator(s) if necessary. MorningView shall pay any incremental fees that may be assessed by a qualifying forum for provision of a mixed panel, unless the arbitrators in a particular proceeding determine that the customer has acted in bad faith in initiating or conducting the proceeding. **THREE FORUMS EXIST FOR THE RESOLUTION OF COMMODITY DISPUTES: CIVIL COURT LITIGATION, REPARATIONS AT THE COMMODITY FUTURES TRADING COMMISSION (CFTC) AND ARBITRATION CONDUCTED BY A SELF-REGULATORY OR OTHER PRIVATE ORGANIZATION OR OTHER PRIVATE ORGANIZATION. THE CFTC RECOGNIZES THAT THE OPPORTUNITY TO SETTLE DISPUTES BY ARBITRATION MAY IN SOME CASES PROVIDE MANY BENEFITS TO CUSTOMERS, INCLUDING THE ABILITY TO OBTAIN AN EXPEDITIOUS AND FINAL RESOLUTION OF DISPUTES WITHOUT INCURRING SUBSTANTIAL COSTS. THE CFTC REQUIRES, HOWEVER, THAT EACH CUSTOMER INDIVIDUALLY EXAMINE THE RELATIVE MERITS OF ARBITRATION AND THAT YOUR CONSENT TO HIS ARBITRATION AGREEMENT BE VOLUNTARY. BY SIGNING THIS AGREEMENT, YOU (1) MAY BE WAIVING YOUR RIGHT TO SUE IN A COURT OF LAW; AND (2) ARE AGREEING TO BE BOUND BY ARBITRATION OF ANY CLAIMS OR COUNTERCLAIMS WHICH YOU OR MORNINGVIEW MAY SUBMIT TO ARBITRATION UNDER THE AGREEMENT. YOU ARE NOT, HOWEVER, WAIVING YOUR RIGHT TO ELECT INSTEAD TO PETITION THE CFTC TO INSTITUTE A REPARATIONS PROCEEDING UNDER SECTION 14 OF THE COMMODITY EXCHANGE ACT WITH RESPECT TO ANY DISPUTE WHICH MAY BE ARBITRATED PURSUANT TO THIS AGREEMENT. IN THE EVENT A DISPUTE ARISES, YOU WILL BE NOTIFIED IF MORNINGVIEW INTENDS TO SUBMIT THE DISPUTE TO ARBITRATION. IF YOU BELIEVE A VIOLATION OF THE COMMODITY EXCHANGE ACT IS INVOLVED AND IF YOU PREFER TO REQUEST A SECTION 14 "REPARATIONS" PROCEEDING BEFORE THE CFTC, YOU WILL HAVE 45 DAYS FROM THE DATE OF SUCH NOTICE IN WHICH TO MAKE THAT ELECTION. YOU NEED NOT SIGN THIS AGREEMENT TO OPEN OR MAINTAIN AN ACCOUNT WITH MorningView. SEE 17 CFR 166.5.**

3. Telephone Orders. MorningView has qualified staff that can execute customer's trade orders over the telephone. Telephone execution is intended for those circumstances when trading via the Trading Platform is not available due to technical problems on the Customer's internet or in situations when the Customer has no other connectivity option. This option can only be executed on the provision that the technical problems are not related to a general MorningView server problem.

The following steps should be used to transact via the telephone:

- a. The MorningView representative will ask for the Customer's User Name and Account Number and confirm that the each match and confirm the identity of the Customer;
- b. Once confirmed, the MorningView will ask for the Customer's Order. (i.e. "What is your Order?")
- c. The Customer should provide the desired Order Type, Trade Action, Number of Lots, Currency Pair and Price (if not a Market Order). For example:

- 1). "Market Order to Buy 5 lots of EUR/USD" (NOTE: "at the market" is implied with Market Orders)
- 2). "Stop Loss Order to Sell 1 lot of USD/JPY at 118.00" If the Customer asks for a market price and the MorningView representative quotes a price, the customer acknowledges that the price as quoted is purely indicative. The actual price the customer trades at may or may not equal that price.

4. Liquidation Level: MorningView reserves the right to automatically liquidate the position and the Customer will be responsible for all losses as a result of the liquidation. MorningView reserves the right to change the Liquidation Level at its sole discretion.

5. Prices from MorningView are independent of prices found elsewhere. Customers acknowledge that the prices reported by MorningView for buying and selling currency pairs are independent and can differ from the prices displayed elsewhere or from other liquidity providers in the interbank market. Differences can result from, but are not limited to, changes in liquidity from interbank market makers to MorningView, an unbalanced position or exposure in currency pairs at MorningView, or differing expectations of price movements in currency pairs by MorningView. MorningView expects that in most cases the prices provided to its Customers will be in line with the general interbank market but does not warrant or imply that this will always be the case.

6. Rollover rates for open positions of currency pairs are determined by MorningView and are independent of prices found elsewhere in the Interbank market. Customer acknowledges that all existing Spot Open Positions that remain open over the end of business day for MorningView, defined as 5:00 PM EST/EDT, are automatically rolled over to the next available Spot Settlement Date at a net debit or credit to the Customer(s) Account as determined by spot interest rates determined solely by MorningView.

In general, if the Customer is long a currency that has higher spot interest rate than the currency that Customer is short; the Customer can expect a net credit added to the Customer's Account value at the end of day. If the Customer is short a currency that has a higher spot interest rate than the currency that the Customer is short, the Customer can expect a net debit subtracted from the Customer Account Value at the end of the day. Rollover debits and credits are also influenced by the number of days that the position has to be rolled. For positions that need to be rolled from a spot settlement date of Friday to Monday, the debit or credit will reflect rollover from Friday to Monday or three business days. For rollovers from Monday to Tuesday, Tuesday to Wednesday, Wednesday to Thursday and Thursday to Friday, the rollover debit or credit is for only one business day. If there is a holiday and MorningView is closed, the rollover would take into consideration the holiday. For example, if Tuesday is a holiday, rollovers from Monday will be for two (2) business days (i.e. from Monday to Wednesday). Since rollover debits and credits are determined by the respective short-term spot interest rates of the respective currencies that make up a currency pair, a large spread from one currencies rate in relation to another's can cause a large debit or credit rollover amount. This spread can result, but is not limited to, a countries tightening of credit conditions in order to dissuade speculators from shorting a currency versus another. The Bank of England in the early 1990's raised short term interest rates to over 20% to dissuade currency speculators from selling Sterling against other currencies when the Pound Sterling came under pressure by speculators. In this situation, those who were short STG and long US Dollars were forced to rollover their spot positions at a large debit from one spot settlement date to the next. By doing so the Bank of England was attempting to dissuade currency speculators from selling STG over spot and rolling over the position from one day to the next. The action was intended to force those who were short STG, to cover their positions before the end of the day forcing an underlying bid into the currency. Year-end and quarter-end periods can also cause unusual spikes in short- term interest rates that may cause temporary spikes in rollover debits and credits. Customers acknowledge that there exists a rollover risk to currency positions. MorningView will display the rollover debits or credits for the respective currencies pairs in the MorningView application and automatically update Customer Reports to reflect the cash flow. MorningView reserves the right to change the credits or debits at its sole discretion if the original amounts are in wrong due to an error or omission.

7. Sweep rates for currency balances other than USD are determined by MorningView and may be independent of prices found elsewhere in the Interbank market. Profits that are calculated in a foreign currency are "swept" into dollars when the open positions are closed and the Profit and Loss realized. For example, if a Customer buys one (1) lot of USD/JPY at 115.00 and sells the same one (1) lot at 116.00, the realized profit on the transaction would be:

Sale Proceeds in Yen = ¥11,600,000
Less: Purchase Proceeds in Yen = ¥11,500,000
Realize Profit of the Trade = ¥ 100,000

Since the realized profit is in Yen, the amount must be swept into US dollars by selling Yen and buying USD. If the exchange rate for the USD/JPY exchange rate is 116.05, the 100,000 Yen are converted and swept into USD at 116.05 creating a USD realized profit of \$861.70 (100,000 / 116.05 = \$861.70). When trading in currencies where the secondary currency is USD (i.e., EUR/USD and GBP/USD), the realized profit and loss is already stated in USD. As a result, the Profit or Loss does not have to be swept. There is No Guarantee of

Profit from Trading with MorningView: Customer acknowledges that neither MorningView nor any of its representatives guarantees to the Customer that they will profit from trading or investing in FX. Customer further acknowledges that they could sustain the loss of their entire Risk Capital deposited in their Account and are financially able to withstand any losses incurred.

8. There is No Guarantee that MorningView will be able to execute stop loss orders, limit orders or OCO orders at the Customer Entered Price. Customer acknowledges and agrees that there may be market, liquidity or other conditions that will prevent MorningView from executing Customers specific Stop Loss Orders, Limit Orders or OCO Orders at the Customer designated price. In some cases the orders will be executed at prices that are less favorable to the price entered and desired by the Customer. The Customer acknowledges and agrees that they are still responsible for trades executed at levels different from their orders and that MorningView is not liable for failure to do so.

9. There is technology risk inherent in trading online or via a software application. Although MorningView has invested a lot of resources developing, testing, configuring and integrating the Trading Platform and other relevant software and hardware, the Customer acknowledges and agrees that MorningView does not guarantee that the Customer will be able to successfully execute transaction, monitor their positions, or perform other essential tasks of MorningView while using the public Internet and other technology from MorningView or from third party vendors known or not known for which MorningView may rely on. MorningView cannot control, without limitation, the routing, Internet connectivity, reliability of customer or MorningView equipment, network connections or any other technology hardware malfunction caused by MorningView hardware, hardware and connectivity that makes up the public Internet, or hardware at the Customers location. Nor does MorningView guarantee, although all effort has been made to the contrary, that the Trading Platform and Associated Back Office and Broker Software Interfaces nor any other code or application including but not limited to the interface with MorningView liquidity provider(s) or the interface with the escrow Account institution or other technology application that would come under the heading software, are error-free and would not lead to communications problems, computer software or hardware breakdowns, malfunctioning errors, and any and all problems or glitches associated with computer problems or any other technical cause or causes. Customer acknowledges and agrees that MorningView provides Trading Platform and Associated Back Office and Broker Software Interfaces "as is," without any warranties of merchantability, fitness for a particular purpose, or other express or implied warranties.

10. Trades Done Using chat applications. MorningView may incorporate the use of an electronic conversational application or other chat like program. Such an application will be used by MorningView to give Customers another way to communicate order details to the MorningView Trading Desk (.).

The following procedure should be used to execute orders with chat applications:

- a. Launch and Log into the chat application using the User Name and Password provided during initial installation and testing (NOTE: The User Name and Password may be different than the one used to log into MorningView). MorningView suggests that the User Name and Password remain strictly confidential.
- b. Contact MorningView using chat application.
- c. Once contact with the MorningView Trade Execution Desk is established, the MorningView representative will ask for Authorization via the Customer's Login Name. If the Account number does not match the chat application Customer information, MorningView reserves the right to not accept any order for the Customer's protection.

d. Once authorized, the MorningView will ask for the Customer's Order (i.e. "What is your Order?")

e. The Customer should type the desired Order Type, Trade Action, Number of Lots, Currency Pair and Price (if not a Market Order).

For example:

1. "Market Order to Buy 5 lots of EUR/USD"
(NOTE: "at the market" is implied with Market Orders).

2. "Stop Loss Order to Sell 1 lot of USD/JPY at 118.00"

f. For the best and quickest results MorningView requires that the Customer type in English.

g. Since the typed conversation is unambiguous as to the intention of the Customer, the MorningView will immediately execute the desired order for the Customer.

h. The MorningView representative will type the executed details to the Customer and ask for Customer confirmation.

i. By typing "Agreed" the transaction is confirmed.

j. The MorningView representative will enter the details into the Account for the Customer. It is the Customers obligation to confirm that the transaction was entered and properly reported in the Account upon the next subsequent log in.
